SET Video Review Match-Info interface for Daedo TkStrike Configuration manual

V0.2 11.12.2021

Christoph Lichtmannegger

Inhalt

1	Installation – SET Video Review	3
2	Configuration - SET Video Review	3
3	Configuration – Daedo TkStrike interface	4
4	Result & Screenshots	4

3

1 INSTALLATION – SET VIDEO REVIEW

1. Uninstall SET Video Review via Windows "Apps & Features"

set video	×
Sortieren nach: Name $ \smallsetminus $	Filtern nach: Alle Laufwerke $ \smallsetminus $
1 App gefunden	
SET Video Review	774 M
1.7.0 build 1	08.10.202
	Ändern Deinstellieren

- 2. Delete the entire installation directory ("C:\Program Files\SET Video Review")
- 3. Run installer "SETVideoReview_1.7.0 build 1_win_x86_64.exe" and follow the instructions

2 CONFIGURATION - SET VIDEO REVIEW

- 1. Edit \rightarrow Preferences
- 2. On the left select "Interfaces"
- 3. Enable the MATCH INFO interface (activate checkbox) and enter Localhost, UDP port, TCP port and Source System accordingly. (see screenshot)

IMPORTANT: Use your local IP address (instead of 192.168.86.253) and choose two different (free!) port numbers. **Recommended**: UDP 1920, TCP 6101

Preferences - SET Video Review						
General Recording Review	Enable MATCH INFO interface Receive MATCH INFO messages:					
IP-Cameras SET	Localhost	192.168.86.253				
Interfaces Remote Control	UDP port	1920				
	TCP port	6101				
	Source system	Daedo TkStrike				

4. Click "OK"

3 CONFIGURATION – DAEDO TKSTRIKE INTERFACE

2. In the TkStrike software, configure the "RT Broadcast" and the "TkStrike UDP Event Listeners" sections as shown in the following screenshot.

IMPORTANT: Use the same values as in your SET VR configuration!

- Do NOT use the IP address from the screenshot, but the local IP address of your PC!
- "RT Broadcast" port must equal the TCP port from SET VR conguration!
- "TkStrike UDP Event Listener" port must equal the UDP port from SET VR configuration!

3. Click "Save" and ensure that the "RT Broadcast" is connected:

4 RESULT & SCREENSHOTS

Finally, SET VR should receive all live data as well as hits and penalties. Additionally, every hit/penalty is accessible in the review process, via red markers in the frame slider.
